St. Catherine's School Isabel Hall

Waverley / Sydney / Australia

Education

### Overview

**Location** . Waverley, Sydney, Australia

**Status** . Completed 2006

**Photography** . Brett Boardman

Isabel Hall is a complete reconstruction of an existing building accommodating the schools senior students. The new building uses ESD principles to provide enhanced environmental and educational amenity to the students and teaching staff.

The interior spaces were reconfigured to provide the core classroom facilities for the senior school. The exterior character was developed to be distinctive from the Junior School and to facilitate a sense of educational progress and a new level of maturity for students.
